MEDICAL FEE DISPUTE RESOLUTION FINDINGS AND DECISION

GENERAL INFORMATION

Requestor Name
GLOBAL MOLECULAR LABS

Respondent Name
TASB RISK MGMT FUND

MFDR Tracking Number
M4-17-2452-01

Carrier's Austin Representative
Box Number 47

MFDR Date Received
April 14, 2017

REQUESTOR'S POSITION SUMMARY

Requestor's Position Summary: "The charges referenced herein were filed with the Carrier and denied for 'Payment denied for absence of precertification/authorization'. We have requested reconsideration from the carrier and they have maintained the denial rationale. We feel these claims are being denied arbitrarily without following proper procedures. We respectfully request dispute resolution in this matter."

Amount in Dispute: $6,250.00

RESPONDENT'S POSITION SUMMARY

Respondent's Position Summary: "The Fund denied the bill for absence of preauthorization as the services billed are outside the Official Disability Guidelines, (ODG) per rule 134.600 and 137.100, and lack of supporting documentation… The above date of service was the 4th UDS testing done in a 12 month period. We previously paid for drug screens… Based on a rolling calendar year, the earliest the provider could bill for another drug screen without pre-authorization would have been 3/1/17."

Response Submitted by: TASB Risk Management Fund

SUMMARY OF DISPUTED SERVICE(S)

Date(s) of Service	Disputed Service(s)	Amount In Dispute	Amount Due
November 8, 2016	G0483	$6,250.00	$269.04

FINDINGS AND DECISION

This medical fee dispute is decided pursuant to Texas Labor Code §413.031 and applicable rules of the Texas Department of Insurance, Division of Workers' Compensation.

Background

1. 28 Texas Administrative Code §133.307 sets out the procedures for resolving medical fee disputes.
2. 28 Texas Administrative Code §134.600 sets out the guidelines for preauthorization, concurrent review, and voluntary certification of healthcare.
3. 28 Texas Administrative Code §134.203 sets out the sets out the fee guidelines for the reimbursement of workers' compensation professional medical services provided on or after March 1, 2008.

4. The insurance carrier reduced payment for the disputed services with the following claim adjustment codes:
   - 150 – Payment adjusted because the payer deems the information submitted does not support his level of service
   - 197 – Payment adjusted for absence of precertification/authorization
   - 189 – Not otherwise classified or unlisted procedure code (CPT/HCPCS) was billed hen there is a specific procedure code for this procedure code. The only drug class that would be counted, based on what has been prescribed or have tested positive on presumptive testing, would be Per Rule 137.100 treatment provided on or after May 1, 2007 must be in accordance with the Official Disability Guidelines. The only indication for doing definitive drug testing would be for those drugs that are currently prescribed to the patient

Issue(s)

1. Are the insurance carrier's denial reasons supported?
2. What is the applicable rule for determining reimbursement for the disputed services?
3. Is the requestor entitled to reimbursement?

Findings

1. The requestor billed HCPCS Code G0483 rendered on November 8, 2016. The insurance carrier denied the disputed service with the following denial reason codes:
   - 150 – Payment adjusted because the payer deems the information submitted does not support his level of service.
   - 197 – Payment adjusted for absence of precertification/authorization.
   - 189 – Not otherwise classified or unlisted procedure code (CPT/HCPCS) was billed hen there is a specific procedure code for this procedure code. The only drug class that would be counted, based on what has been prescribed or have tested positive on presumptive testing, would be Per Rule 137.100 treatment provided on or after May 1, 2007 must be in accordance with the Official Disability Guidelines. The only indication for doing definitive drug testing would be for those drugs that are currently prescribed to the patient or have original payment decision is being maintained

   The Division will determine whether the disputed service, HCPCS Code G0483 rendered on November 8, 2016 requires preauthorization pursuant to 28 Texas Administrative Code §134.600.

   28 Texas Administrative Code §134.600(p)(12) states in pertinent part "(p) Non-emergency health care requiring preauthorization includes: (12) treatments and services that exceed or are not addressed by the commissioner's adopted treatment guidelines or protocols and are not contained in a treatment plan preauthorized by the insurance carrier. This requirement does not apply to drugs prescribed for claims under §§134.506, 134.530 or 134.540 of this title (relating to Pharmaceutical Benefits)."

   HCPCS Code G0483 is defined as "Drug test(s), definitive, utilizing (1) drug identification methods able to identify individual drugs and distinguish between structural isomers (but not necessarily stereoisomers), including, but not limited to, GC/MS (any type, single or tandem) and LC/MS (any type, single or tandem and excluding immunoassays (e.g., IA, EIA, ELISA, EMIT, FPIA) and enzymatic methods (e.g., alcohol dehydrogenase)), (2) stable isotope or other universally recognized internal standards in all samples (e.g., to control for matrix effects, interferences and variations in signal strength), and (3) method or drug-specific calibration and matrix-matched quality control material (e.g., to control for instrument variations and mass spectral drift); qualitative or quantitative, all sources, includes specimen validity testing, per day; 22 or more drug class(es), including metabolite(s) if performed."

   28 Texas Administrative Code (TAC) §137.100 (a) states, in pertinent part, "Health care providers shall provide treatment in accordance with the current edition of the *Official Disability Guidelines - Treatment in Workers' Comp..."* Health care provided in accordance with the Division treatment guidelines is presumed reasonable as specified in Labor Code §413.017, and is also presumed to be health care reasonably required as defined by Labor Code §401.011(22-a).

   Review of the 2016 ODG pain chapter under the "Drug testing" finds that drug testing is recommended. The division concludes that the services were provided in accordance with the division's treatment guidelines; that the services are presumed reasonable pursuant to 28 TAC §137.100(c), and Labor Code §413.017; and are also presumed to be health care reasonably required as defined by Labor Code §401.011(22-a).

   For the reasons stated above the Division finds that insurance carrier's denial reasons are not supported and the requestor is entitled to reimbursement for service in dispute.

2. The service in dispute, HCPCS Code G0483 is for clinical laboratory services subject to 28 Texas Administrative Code §134.203 (b) which states in pertinent part, "For coding, billing, reporting, and reimbursement of professional medical services, Texas workers' compensation system participants shall apply the following: (1) Medicare payment policies, including its coding; billing; correct coding initiatives (CCI) edits; modifiers; bonus payments for health professional shortage areas (HPSAs) and physician scarcity areas (PSAs); and other payment policies in effect on the date a service is provided with any additions or exceptions in the rules."

   28 Texas Administrative Code §134.203 (e) states in pertinent part, "The MAR for pathology and laboratory services not addressed in subsection (c)(1) of this section or in other Division rules shall be determined as follows: (1) 125 percent of the fee listed for the code in the Medicare Clinical Fee Schedule for the technical component of the service; and (2) 45 percent of the Division established MAR for the code derived in paragraph (1) of this subsection for the professional component of the service."

   Reimbursement is determined pursuant to Medicare's 2016 Clinical Laboratory Fee Schedule found at, https://www.cms.gov/Medicare/Medicare-Fee-for-Service-Payment/ClinicalLabFeeSched/ and calculated as follows:

   Procedure code G0483, service date November 6, 2016 represents a pathology/laboratory service with reimbursement determined per §134.203(e). The fee listed for this code in the Medicare Clinical Fee Schedule is $215.23. 125% of this amount is $269.04. As a result, the requestor is entitled to reimbursement in the amount of $269.04.

3. Review of the submitted documentation finds that the requestor is entitled to reimbursement in the amount of $269.04. Therefore, this amount is recommended.

Conclusion

For the reasons stated above, the Division finds that the requestor has established that additional reimbursement is due. As a result, the amount ordered is $269.04.

ORDER

Based upon the documentation submitted by the parties and in accordance with the provisions of Texas Labor Code Sections 413.031 and 413.019 (if applicable), the Division has determined that the requestor is entitled to additional reimbursement for the services involved in this dispute. The Division hereby ORDERS the respondent to remit to the requestor the amount of $269.04 plus applicable accrued interest per 28 Texas Administrative Code §134.130, due within 30 days of receipt of this Order.
